## III. Approval of Iron County RPO Project Priority List 2010

Mr. Scott Leavitt explained to the Council members the process used by the RPO Advisory Committee to prioritize local transportation projects, which Project Priority List is now being presented to the RPO Executive Council for their review and approval.

When approved by the RTEC, the 2010 Project Prioritization List will be submitted to the Utah Department of Transportation (UDOT). UDOT will then integrate these recommendations into their decision processes when determining which transportation projects will be funded and included in the Statewide Transportation Improvement Program (STIP).

There was discussion among members of the Council regarding the projects on the List. Mayor Deutschlander suggested moving the middle leg of the belt route up higher on the Priority List. Mr. Reed Erickson felt that the Iron Springs Road should be added to the List.

**A motion was made by Commissioner Alma Adams, seconded by Mayor Joe Burgess, to accept the 2010 Project Prioritizations recommended by the Rural Transportation Advisory Committee of the Iron County Rural Planning Organization, with the addition of the Iron Springs Road to the Capacity Projects; and to submit these Prioritizations to the Utah Department of Transportation.**
